## Band Recommendation – Cold Flame

I have been promoting live music now for well over twenty years, both as a founder member of Darlington Arts Centre Rhythm 'n' Blues Club, and more recently with my own promotional company Gasto Promotions. During this time, I have been involved with more than a thousand gigs, either booking bands, promotional work or as Master of Ceremonies. I think I can safely say that I am in a good position to be able to recommend certain bands to other like-minded promoters.

Cold Flame are such a band that I can highly recommend. They can be relied upon to put on a very professional tribute show to the music of Jethro Tull. They are well organised and they do quite a lot of their own promotional work to publicize their shows. With their networking and contacts in the media this has made it a lot easier for me to promote them which I have done on more than one occasion.

When they played for me in June 2012 they put on a really excellent show, and in my opinion must be regarded as one of the UK's top tribute acts. They entertained a near full house and gave them all a most enjoyable evening. I had no hesitation in booking the band again a couple of years later and once more we had a great night's entertainment.

I can certainly recommend Cold Flame to any promoter if they are looking for a tribute band to appease Jethro Tull die-hard fans. You, and they, will not be disappointed in their performance - you can be certain!

Please feel free to contact me if you want further reassurance.

Yours Sincerely,

**Mike Prendergast**
